OFFICE MANAGEMENT SEMINAR

The Office Management Seminar examines the role of the office manager in depth with a special emphasis on the utilization of the latest concepts in behavioral science. Included are sessions on communication, motivation, human relations, the executive's view-point of the professional secretary's role, and an updating of the organization of the Agency and its relationship to the intelligence community. Selected speakers from both inside and outside the Agency employ techniques which result in maximum student involvement; team exercises, discussions, role playing, films, and lectures are used to gain such involvement.

This Seminar is now open to all interested senior secretaries and administrative assistants in grade GS-08 and above.
